1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: Rat Glue Traps

Trade Name: Rat Glue

Supplier: SX Environmental

2. COMPOSITIONS AND INFORMATION ON INGREDIENTS

Component	CAS No.	% (w/w)	EINECS No.	EU - Classification
Butyl rubber*	68441-14-5	2-10	Exempt	?
Polyisobutylene*	9003-27-4	10-20	Exempt	?
White mineral oils	8042-47-5	30-50	232-455-8	?
Polyethylene*	9002-88-4	1-5	Exempt	?
Oil resin*	69430-35-9	15-25	Exempt	?

Exempt polymers whose monomers are listed on EINECS.

3. HAZARD IDENTIFICATION

This product is considered an "article", and not classified as dangerous according to Directive 1999/45/EC as amended and adapted.

Physical/Chemical Hazards: Chemical components in the product have incorporated into the structure of the products, and exposure to the components is not anticipated under normal conditions of use.

Human health hazards: Exposure to chemical components is not anticipated in normal use.

Direct contact may cause irritation to the eyes. Under normal condition of use, the product is incapable of releasing constituents.

Environmental Hazards: Unlikely to be harmful to aquatic organisms

4. FIRST AID

There are no known acute, immediate effects requiring treatment as a result of the use of this product as supplied.

Note to Physician: No specific antidote. Supportive care. Treatment based on judgment of the physician in response to reactions of the patient.

5. FIRE FIGHTING MEASURES

Flammable Properties: Flash point temperature: >180 °C (White mineral oils) Auto ignition NA

Flammability Limits: LFL Not applicable: NA
UFL Not applicable: NA

Hazardous Combustion Products: Under fire conditions, the product decomposes; produced smoke may contain polymer fragments of varying compositions in addition to unidentified toxic and/or irritating

compounds. Hazardous combustion products may include and are not limited to carbon monoxide and carbon dioxide, and other small molecular weight hydrocarbons.

Extinguishing Media: Water fog, carbon dioxide, or dry chemical.

Fire Fighting Instructions: Keep people away. Isolate fire area and deny unnecessary entry. Molten plastics, dust can cause explosion hazards. Do not use direct water stream, which may spread fire. Fight fire from protected location or safe distance.

Protective Equipments for Fire Fighting: Firefighters should be equipped with positive pressure self-contained breathing apparatus (SCBA) and full protective equipment.

6. ACCIDENTAL RELEASE MEASURES

7. HANDLING AND STORAGE

No special precautions are needed.

Handling: No special precautions are needed.

Storage: Avoid store near heat or flame. Do not expose to direct sunlight and keep away from small children and pets.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Component Occupational Exposure Limits

The EU, ACGIH, German DFG, United Kingdom and Sweden have not developed exposure limits for any of this product's components.

Engineering Controls: Not required in particular

Eye Protection: None required in normal use.

Skin Protection: None required in normal use.

Respiratory Protection: None required in normal use.

General: Good personal hygiene practices should always be followed.

9. PHYSICAL AND CHEMICAL PROPERTIES

Product is a manufactured article in the form of a tube containing some combination of polymers and Petroleum hydrocarbons.

10. STABILITY AND REACTIVITY

Stability: Stable under normal handling conditions.

Conditions to Avoid: Excess heating.

Material to Avoid: Strong acids and strong oxidizing agents (e.g. nitric acid or perchloric acid).

Hazardous Decomposition Products: Refer to section 5 for Hazardous Combustion Products.

Hazardous Polymerization: Will not occur by itself.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity Component

Analysis

White mineral oils (8042-47-5): Oral LD50 Rat: >5000 mg/kg

Polyethylene (9002-88-4): Inhalation LC50 Mouse: 12 gm/m³/30M

Carcinogenicity

Component Carcinogenicity Polyethylene (9002-88-4):

IARC Cancer Review – Group 3 (Not classifiable); Supplement 7 (1987), Monograph 19 (1979)

Mutagenicity No data available for this product.
Teratogenicity No data available for this product.

12. ECOLOGICAL INFORMATION

Ecotoxicity: NA
BOD5 and COD: NA
Biodegradable: NA
Mobility: NA
Toxicity of the Products of Biodegradation: NA

13. DISPOSAL CONSIDERATIONS

Disposal: Do not dump into any sewers, on the ground, or into any body of water. All disposal methods must be in compliance with all applicable federal, state/provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.

14. TRANSPORT INFORMATION

International Transportation Regulations:

US DOT: Not regulated as a hazardous material or dangerous goods for transportation.

ICAO/IATA: Not regulated as a hazardous material or dangerous goods for transportation.

IMO/IMDG: Not regulated as a hazardous material or dangerous goods for transportation.

RID/ADR: Not regulated as a hazardous material or dangerous goods for transportation.

15. REGULATORY INFORMATION

European Union Regulatory Information

Label Requirements

R-Phrases/S-phrases: This product is not classified according to the EU regulations.

Additional Regulatory Information: Component Analysis – Inventory
